EASYFIND SYSTEM
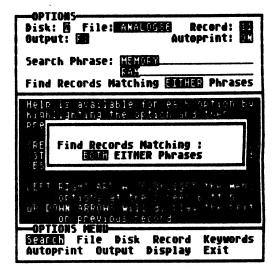

o Have you ever spent HOURS looking for a program, article, or letter in your magazines?

o Have you ever said, "I think I remember seeing that in ANALOG last year sometime...or was it ANTIC?"

If you answered yes to any of the above questions, **EasyFind** can help you! The **EasyFind System** is a specialized information retrieval system that combines the retrieval capabilities of **EasyFind** with indexes compiled from articles in ANALOG, ANTIC, and COMPUTE!. Each index contains a complete summary of every program, article, letter, review, correction, and tip for 8-bit Atari's - all cross-referenced so you can locate that forgotten article quickly and easily!

FEATURES

o On-line Help

o Windows

o RAMdisk Support

o Multiple Search Phrases

o Boolean Logic

o Printer or Disk Output

o Multiple Display Formats

o Menu Driven

EasyFind V2.0
This version is written in Atari BASIC and is compatible with all Atari Computers. Requires Atari BASIC, 40K memory, and a disk drive.

Turbo-EasyFind
Compiled with Turbo-BASIC, this new version is 2-5 times faster that EasyFind V2.0 and has all the same features. Requires an Atari XL or XE computer and a disk drive.

EasyStor
Up until now, the only way to create or modify **EasyFind** indexes was with a commercial word processor. Now EasyStor, a companion product to **EasyFind**, allows you to create, delete, and modify magazine indexes. Works with all Atari computers and requires Atari BASIC, 40K memory and a disk drive.

TURBO-BASIC

Here is an almost unbelievable public domain BASIC interpreter that works on all XL or XE computers and is 100% Atari BASIC compatible. It offers 42 more commands, 22 more functions, takes 1603 bytes less memory, and runs 3 times faster that Atari BASIC! Now you can take all those slow-running Atari BASIC programs and make them run faster withou any work!

Also, included is a compiler that will speed up either Atari BASIC or Turbo-BASIC programs 3-5 times! **Turbo-BASIC** compares very favorably to commercial BASIC interpreter/compiler systems cost $30-$50. Disk includes documentation on both **Turbo-BASIC** and the compiler plus several demo programs.

NEW COMMANDS AND FUNCTIONS:

GRAPHICS : BLOAD, BRUN, DELETE, DIR, LOCK, RENAME, UNLOCK

MEMORY : DPEEK, DPOKE, MOVE, BPUT, BGET, %PUT, %GET

GENERAL : PAUSE, RENUM, DEL, DUMP, TRACE, *L, *F, *B, Line labels

STRUCTURES : REPEAT, UNTIL, WHILE, WEND, ELSE, PROC, ENDPROC, EXEC, EXIT

FUNCTIONS : HEX$, DEC, DIV, MOD, FRAC, TRUNC, RAND, &, !, EXOR, TIME, TIME$,INKEY$, INSTR, UINSTR, ERR, ERL, Hex constants

SIERRAWARE PUBLIC DOMAIN DISKS

Our Public Domain series of disks, SierraWare, is a collection of what we believe to be the best available. Each of the programs on these disks was chosen from hundreds available. All disks are menu-driven with a description of each program and any documentation that is available or references to where it can be found.

TEXT EDITORS : TEDIT, TEXTPRO, SPEEDSCRIPT

C COMPILERS : ACE C & CC8 - COMPLETE C SYSTEMS

UTILITIES : WEDGE, EXTBASIC, TOOLBOX, TRACE, DISKFIX, DEBUG, REPAIR, DISKTOOL, VERSION-C, PAINLESS, and 12 Others.

GRAPHICS : PAINTER, FADER, MAGIC, FONTEDIT, MICROPAINT, KOALASKETCH

COMMUNICATIONS : AMODEM, TSCOPE, 1030 EXPRESS, 850 EXPRESS
